

## Flame Photometer

6400A

### Features

- ❖ Specific ignition route
- ❖ Simultaneously testing K and Na
- ❖ Liquid petroleum gas (LPG) as fuel

6420

### Specifications

- |                     |   |
|---------------------|---|
| ❖ Measurement range | 0-50ug/ml                                     |
| ❖ Stability         | Reading drift<3 digits (3%)                   |
| ❖ Sample amount     | 2-5ml/min                                     |
| ❖ Damping time      | <6 second                                     |
| ❖ Linear error      | K is 0.02-0.07 mmol/L<br>Na is 1.1-1.6 mmol/L |
| ❖ Dimension(mm)     | 580*280*460                                   |
| ❖ Weight            | 32Kg  |
